

# OPTIONS FOR FREE CANCER SCREENING IN SW WASHINGTON

## Did you know? *Early detection is the best protection.*

- Breast, cervical, and colon cancer often have no warning signs.
- Regular screenings can find cancer early when treatment is easier.
- 1 in 7 women are at average risk of breast cancer in the Pacific Northwest.
- Men get breast cancer too.

For more than 30 years, the federal Center for Disease Control and Prevention's National Breast and Cervical Cancer Early Detection Program (NBCCEDP) has provided access to timely breast and cervical cancer screening and diagnostic services to women who have low incomes and are uninsured and underserved.
